Profile

I am a passionate mechatronic engineer with a keen interest in innovation management and programming. I have dedicated time and effort to acquire skills in JavaScript and web development to complement my technical background, with a special emphasis on Angular, React, and Node.js with Express.js. My focus revolves around creating intuitive and efficient web solutions that combine mechanics, electronics, and computer science to address real challenges with added value.

Skills

- JavaScript, HTML, CSS.
- Developing responsive and dynamic websites.
- Designing and controlling mechatronic systems.
- Circuit design, sensor handling, and actuator management.
- Ability to effectively tackle technical challenges.
- Angular framework.

PROFESSIONAL EXPERIENCE

Connempathy | 2021 – 2023

Call center assistant, Remote

Tasks:

- Problem Solving
- Order Management
- Product Information
- Handling Returns and Exchanges
- Customer Data Recording and Updating
- Continuous Training

Caldas Aeronáutica | 2022 – 2023

Light Sport Aircraft (LSA) Digital Device Developer

Tasks:

- Electronic Circuit Design
- Human-Machine Interface Development
- Sensor and Instrument Adaptation
- Control Logic Programming
- Results Presentation and Documentation

EDUCATION

2016 | Pasto-Colombia

High School

Instituto Champagnat

2023 | Cali-Colombia

Mechatronic Engineer

Universidad Autónoma de Occidente

2022 | Virtual

Curso de Api REST con Angular.

Manejo de versiones Git

Curso de fundamentos de Node.js.

Curso de consumos de API's mediante Express.js

Platzi

IDIOMS

Spanish: Native

English: Oxford Placement Test. Intermedio (B2+)
